

Environment

ISO 14001 Objectives & Targets – 2010

- Objective No.1
Frying oil reduction 10%

Objective No.2

- Reduce landfill volume by 35%

Objective No.3

- Reduce water consumption by 10% /unit

Objective No.4

- Improve effluent water quality 5%

Objective No.5

- Yield management of raw materials -10%

Energy

● EN 16001 Objectives & Targets – 2010 -

- Objective No.1
● Reduce Electricity Consumption by 5% - relative factor

- Objective No.2
● Reduce thermal energy demand 10%

- Objective No.3
● Optimise drives/ motors/ pumps by use of variable speed drives and 'soft' start technology

- Objective No.4
● Determine Site electrical efficiency

- Objective No.5
● Training & Awareness programme – achieve levels 1-3 for entire Site
