

Energy Policy

O'Kane Poultry Ltd seeks to achieve our business objectives by considering energy efficiency as part of our core business.

O'Kane Poultry Ltd aims to:

- Continuously improve performance across the significant energy aspects of the business
- Engage new and emerging technologies to reduce relative energy use
- Develop measurable objectives and targets for energy utilisation

To achieve these aims, we shall:

- Appoint a member of the management team with responsibility for energy management, and an energy management team to implement this policy
- Treat local, national, adopted European legislation as the absolute minimum criteria
- Develop energy performance indices illustrating the performance of different energy streams
- Develop and implement an Energy Management System (EnMS), which has at its core the objective of achieving continual improvement
- Encourage the practical implementation of the EnMS as part of day-to-day management and encourage the implementation of practices which lead to improved energy performance
- Set targets and objectives for achieving improved energy performance.
- Meet our obligations within the Climate Change Agreement Framework

O'Kane Poultry Ltd will undertake effective communication to:

- Ensure employees are aware of our Energy Policy, are aware of their responsibilities and are given the support and encouragement required to fulfil them
- Provide meaningful information on our energy performance, the objectives and targets set and progress made

Signed

Managing Director
