

Environmental Policy

O'Kane Poultry Ltd seeks to achieve our business objectives in a manner that causes least harm to the environment and, as far is reasonable practicable, achieve environmental benefits.

O'Kane Poultry Ltd aims to:

- better understand the impact our activities have on the environment
- adopt practices, which lead to improvements in environmental performance where practicable
- conserve energy, reduce consumption of raw materials, and reduce waste where commercially and operationally viable

To achieve these aims, we shall:

- Appoint a member of the management team with responsibility for environmental management, and an environmental management team to implement this policy
- Treat legally-binding environmental conditions as the absolute minimum criteria
- Assess the impacts of our business activities on the environment and identify and prioritise the areas of our business where improvements in environmental performance might be achieved
- Develop environmental performance indices for areas of our business identified as being priorities for improvement, understand the factors which lead to improved environmental performance and apply this understanding to future work
- Develop and implement an Environmental Management System (EMS), which has at its core the objective of achieving continual improvement
- Encourage the practical implementation of the EMS as part of day-to-day management and encourage the implementation of practices which lead to improved environmental performance
- Set targets and objectives for achieving improved environmental performance.

O'Kane Poultry Ltd will undertake effective communication to:

- Ensure employees are aware of our Environmental Policy, are aware of their responsibilities and are given the support and encouragement required to fulfil them
- Provide meaningful information on our environmental performance, the objectives and targets set and progress made
